**Cost-Plus Pricing for all other medications:** We believe necessary medications should be affordable for everyone who needs them. That's why we proudly offer our members access to medications at cost-plus rates, removing all traditional retail markups, ensuring you only pay what's fair. Cost-plus is the average wholesale price the pharmacy pays for the medication, plus a modest dispensing fee. This approach empowers you with transparent pricing, savings on your prescriptions, and the peace of mind knowing you are paying a fair price for your medication needs.

**Pharmacy Advocacy:** Empowering Your Health Decisions Have any pharmacy-related questions? Our pharmacy team, available Monday through Friday, is always ready to help you and ensure you fully understand your treatment. We advocate for your pharmaceutical needs, improving your overall healthcare experience.
